TECHNOLOGIES

ALEJANDRO PRIETO

Devops Engineer

WORK EXPERIENCE

Devops Engineer - Evana AG

2024 March - current

Management and maintenance of kubernetes cluster, ArgoCD, Azure

Devops Engineer - Schumann Gmbh

2023 Jun - 2024 Feb

Construction of Jenkins-Pipelines, Ansible-Playbooks, Docker-Images security, Automation of processes

CTO - Mercury Cash

2022 Jul - 2023 May

Reconstruction of the IT department, stabilization of the production environment and strategic planning.

Department Management: - Project planning and creation of performance metrics.

- Establish internal security policies, security credential handling and document management

- Establish procedures for hiring resources

Cloud migration: - Migration of the Digital Ocean platform to AWS

- Replacing core parts of the system with new microservices oriented implementations.

HR: - Restructuring of the IT department and creation of a stable team of 6 members.

Vendors: - Review of existing IT service providers, renegotiation of existing contracts

Senior Fullstack Developer - Ad & Vision

2021 Feb - 2022 May

Technical lead and DevOps for web development projects

Web: - Planning, development and deployment of strategic web projects for clients such as Ferrero

- Development of internal management tools

DevOps: - Cloud infrastructure planning using Ionos, AWS and onPremises

- Construction of CI/CD pipelines for multiple projects

Senior Software Engineer - cm3p Gmbh

2017 Feb - 2021 Jan

Technical lead and programming of SDK for measurement devices of Leica Geosystems

Android: - Connect, send and receive data from measurement devices, using Bluetooth and Wifi networks.

iOS: - Finish the implementation of the SDK and support the client during the implementation phase.

- Update legacy app to improve the functionality and comply with the latest requirements of Android/iOS

SDK

Swift: - Cross-platform computer-vision based automation framework based on iOS Vision Library and

Vapor back-end.

Computer Vision: OpenCV, iOS Vision Library

TRAINING

2023 - CKA: Certified Kubernetes administrator

2022 - AWS: Cloud Practitioner

2022 - Azure: Fundamentals

2011 - ISTQB: Foundation level

2009 - CISCO Networking: CCNA

2007 - Server Configuration

LANGUAGES

English

German

Spanish

CONTRACTS

cm3p GmbH

2015 Oct - 2016 Apr

Master Thesis: Integration from OpenCV in the Smartphone platforms, iPhone, iPad and Android

C++, OpenCV: Designed an image comparison app using SIFT and SURF, proprietary algorithms

Hochschule Mannheim

2015 Feb - 2015 Jun

Steinbeis - Hiwi, Lab Assistant

C++, OpenCV: Digital image processing.

EDUCATION

Hochschule Mannheim

2014 - 2016

Master in InformationsTechnik

- Artificial Vision
- Embedded Systems
- Biomedical

Thesis: Integration from OpenCV on Smartphone-platforms, iPhone, iPad and Android

EUDE Business School

2015 - 2016

M.B.A

Master in Business Administration, M.B.A

Pontificia Universidad Javeriana

2004 - 2010

Electronic engineering

- Digital signal and image processing
- Computer science

Thesis: Real time algorithm for vehicle counting based on interest stripes.

- C++ with openCV
- <http://repository.javeriana.edu.co/handle/10554/7034>

A handwritten signature in black ink, appearing to read "Alfonso P.".
