ALEJANDRO PRIETO

Devops Engineer

WORK EXPERIENCE

Devops Engineer - Evana AG

2024 March - current

Management and maintenance of kubernetes cluster, ArgoCD, Azure

Devops Engineer - Schumann GmbH

2023 Jun - 2024 Feb

Construction of Jenkins-Pipelines, Ansible-Playbooks, Docker-Images security, Automation of processes

CTO - Mercury Cash

2022 Jul - 2023 May

Strategic IT Leadership & Transformation: Directed the reconstruction of the IT department to stabilize production operations and align with long-term business goals. Oversaw project planning and defined KPIs, established security protocols and document governance. Designed streamlined hiring practices

Cloud Migration & Architecture Modernization: Led the migration from DigitalOcean to AWS, directed the replacement of legacy components with microservices-based architectures

Vendor & Supplier Optimization: Reviewed IT service providers and renegotiated contracts to improve service delivery and cost alignment.

Senior Fullstack Developer - Ad & Vision

2021 Feb - 2022 May

Technical lead and DevOps for web development projects

Web: Planning, development and deployment of strategic web projects for clients such as Ferrero

DevOps: Cloud infrastructure planning using Ionos, AWS and onPremises

Senior Software Engineer - cm3p GmbH

2017 Feb - 2021 Jan

Technical Lead and SDK Developer - Leica Geosystems measurement devices

Android & iOS: - Implemented Bluetooth and Wi-Fi communication protocols to facilitate seamless data exchange between Leica Geosystem's measurement devices and Android applications, support the client during the implementation phase.

Swift: - Cross-platform computer-vision based automation framework using on iOS Vision and Vapor back-end.

Computer Vision: OpenCV, iOS Vision Library

TRAINING

2025 - CKS: In progress

2023 - CKA: Certified Kubernetes administrator

2022 - AWS: Cloud Practitioner

2022 - Azure: Fundamentals

2011 - ISTQB: Foundation level

2009 - CISCO Networking: CCNA

2007 - Server Configuration

CONTRACTS

Freelance

2016 May - 2016 Dec

Web-Designer / Development

- Java - backend
- Web-Page Development
- Hosting management

cm3p Gmbh

2015 Oct - 2016 Apr

Integration from OpenCV in the Smartphone platforms, iPhone, iPad and Android

- Master Thesis - C++, OpenCV:** - Developed an image comparison app using SIFT and SURF proprietary algorithms to identify and match key features between images
- Run benchmarks and performance optimization

Hochschule Mannheim

2015 Feb - 2015 Jun

Steinbeis - Hiwi, Lab Assistant

C++, OpenCV: Digital image processing.

EDUCATION

Hochschule Mannheim

2014 - 2016

Master in InformationsTechnik

- Artificial Vision
- Embedded Systems
- Biomedical

Thesis: Integration from OpenCV on Smartphone-platforms, iPhone, iPad and Android

Pontificia Universidad Javeriana

2004 - 2010

Electronic engineering

- Digital signal and image processing
- Computer science

Thesis: Real time algorithm for vehicle counting based on interest stripes.

- C++ with openCV
